**THIS WORKSHOP IS FOR
VOCAL AND MUSICAL EXPLORERS
who want to learn to sing in different vocal & choral styles!**

If you would like to Discover:

**i) How Your Voice can be like an Orchestra
full of Different Tone Colours
(instead of viewing your voice as having just one way of sounding)**

and

ii) How to Sing in Different World Music Vocal Styles

THEN THIS WORKSHOP IS FOR YOU!

Normally we only use a small part of our vocal potential!!

Likewise, each culture sings in a specific way through selecting a limited number of voice elements from the full range of variables.

Over the last 25 years, however, a multiplicity of extraordinary world singing styles and beautiful choral idioms have emerged in our midst. The glorious diversity of these voices demonstrate how the full possibilities of the voice are not revealed in any one singing style.

So what we mostly hear today is the SPECIALISED VOICE, NOT THE 'WHOLE VOICE'.

'World Voice' offers you the chance to explore how multi-cultural voicework today is demonstrating a move towards new more open-minded and holistic paradigms in singing. By bringing together voices from ancient traditions with modern research, we now have the wonderful opportunity to learn from the singing of other cultures. These voices, you will find, teach us different concepts, aesthetics and beliefs about what we mean by vocal beauty.

Why do Different Cultures Sing in such Different Ways?

Michael will explore with you why Western voices - from Classical singers to English Folk singers - sound so different from the voices of Bulgarian women, Ladysmith Black Mambazo, or Indian singers.

We'll explore together how each vocal style has been developed to meet:

- the ways different Worldviews, Spiritual Perspectives and Social Structures influence each Voice Style
- the influence of Different Accompanying Instruments on Voice Style
 - the Functions and Contexts in which Music is Sung (e.g. the influence of different landscapes on the music).

To explore this we'll sing rainforest music from the *BAKA PYGMIES & other idioms*.

KEY THEMES WE'LL PRACTICALLY EXPLORE

Expand the Borders of Singing

Discover how the different vocal styles of world musics can open up different aspects of your voice so that your 'WHOLE VOICE' can be revealed.

In particular, explore how to create DIFFERENT VOICE QUALITIES through learning to vary the way you use your resonance, breathing, and registers, etc. Via these means you'll develop a flexible, multi-coloured voice, not just one specialised (or habitual) voice.

The voices we'll explore will include:

- *the Nasality of SARDINIAN VOICES*
- *the Use of Free Air in EAST AFRICAN VOICES*
- *the Warm Pharyngeal Resonance of GEORGIAN SINGERS*
- *the Bright Forward Focus and Open Throated Singing of BULGARIAN VOICES, to*
- *the Pulsating Vibrato, Falsetto & Descending Vocal Glides of NATIVE AMERICAN CHANT.*

In addition we'll explore • **World Sacred Chant Traditions** (e.g. Byzantine, Hebrew, Indian, Early Irish and Native American).

The World in Harmony - World Choral Music in Choirs

Get inside the diverse and beautiful ways people weave their voices together in part-singing from all over the world, in what is sure to be a festival of glorious choral music from:

DRONES (e.g. Bulgaria) → *OVERLAP & ECHOES* (e.g. Pygmies & Tonga)
→ *CALL & RESPONSE & OSTINATI* (e.g. Africa) → *SUMPTUOUS CHORDS* (e.g. Georgian)
→ *MULTI-LAYERED INTERLOCKING RHYTHMIC CHANTS* (e.g. Bali).

World Music Meets Contemporary Choral Creativity

Come and explore the new dynamic interaction going on between world music traditions and contemporary western creativity. This has been one of the most important musical developments of the last 30 years. These choral pieces will include music influenced by:

- *SAAMI JOIKS* • *INUIT CHANTS AND* • *NIGERIAN HIGH LIFE.*

Above all, the workshop will:

- Offer you a 'SINGING ADVENTURE' that celebrates the richness of singing in its broadest sense, through exploring voices and choral idioms of singers from all over the world.
- BROADEN YOUR IDEAS OF WHAT SINGING IS and open your ears to other ways of singing.
- CREATE A UNIQUE SINGING COMMUNITY through demonstrating how world choral musics encourage a wider section of society to find their voices together in choirs.
- *Give you the courage to explore your voice in new ways and help you discover*
The Healing Power of Singing in Different Vocal Styles.
